

CIM EG Maintenance Request form

This form is to be addressed to the CIM EG Convenor at cim@entsoe.eu

Date of submission:	20/03/2024
Submittor Name:	Bhagyashree Wahie
Organisation:	ENTSO-E
E-mail :	bhagyashree.wahie@entsoe.eu

Maintenance Request title:	<p>ProcessType (P): Axx: Permission administration</p> <p>EventType (E) Axx: Exchange of information Axx: Permission creation Axx: Termination of service Axx: Notification of termination of service</p> <p>Purpose ReasonType(R) Axx: (Explicit) Permission from the customer Axx: In execution of a contract with the customer (Execution of contract) Axx: Legal obligations Axx: In protection of vital interests of the customer Axx: In order to perform a duty of common (national) interest Axx: Justified interest of the dataprocsee</p>
Impacted document/schema:	Implementation Guide (Procedures for access to metering & consumption data)
Clause/Paragraph/Figure/Table:	See below under description
<p style="text-align: center;">Description of issue:</p> <p>For Implementation guide (Procedures for access to metering & consumption data) we have created dependency tables based on the exchange of metering and consumption data profile assembly model. For some of the attribute values: The process types, event types and reason types are missing and has to be newly created so that we have the missing values for the profile class & attributes in the dependency tables.</p>	
Proposed resolution:	
We need to introduce new process types, event types and reason types	
ENTSO-E Code List change request	

Type of code	Code ⁽¹⁾ :	Definition:	Description:
<i>ProcessType</i>	Axx	Permission administration	Administration of permissions to access and/or use data.
<i>EventType</i>	Axx	Exchange of information	Information sent and received granted to entities to share data, details, or insights related to electrical systems, usage, or operations.
<i>EventType</i>	Axx	Permission creation	Process of granting authorization or approval for the establishment or modification of electrical systems, equipment, or operations.
<i>EventType</i>	Axx	Termination of service	A document requesting the termination of a service, entity or object within the energy industry
<i>EventType</i>	Axx	Notification of termination of service	A formal communication issued by a utility company to inform a customer that their electrical service will be discontinued or disconnected.
<i>ReasonType</i>	Axx	In execution of a contract with the customer (Execution of contract)	Based on the regulation (EU) 2016/679 (GDPR) Article 6, Lawfulness of processing: Processing is necessary for the performance of a contract to which the data subject is party or in order to take steps at the request of the data subject prior to entering into a contract
<i>ReasonType</i>	Axx	Legal obligations	Based on the regulation (EU) 2016/679 (GDPR) Article 6, Lawfulness of processing: «Processing is necessary for compliance with a legal obligation to which the controller is subject»
<i>ReasonType</i>	Axx	In protection of vital interests of the customer	Based on the regulation (EU) 2016/679 (GDPR) Article 6, Lawfulness of processing: «Processing is necessary in order to protect the vital interests of the data subject or of another natural person»
<i>ReasonType</i>	Axx	In order to perform a duty of common (national) interest	Based on the regulation (EU) 2016/679 (GDPR) Article 6, Lawfulness of processing: «Processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller»

¹ The “Code” field is to be completed in the case of modifications to existing codes.

<i>Reason Type</i>	Axx	Justified interest of the dataprocsee	Based on the regulation (EU) 2016/679 (GDPR) Article 6, Lawfulness of processing: «Processing is necessary for the purposes of the legitimate interests pursued by the controller or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data, in particular where the data subject is a child»

All participants in the European Electricity Market/System Operation/System Development may issue a Maintenance Request concerning ENTSO-E documentation or guides. This document defines the form that is to be used to submit such a request.

General guidelines for the Maintenance Request submission:

- The form is to be completed with all the necessary information.
- All associated documents required for the understanding of the Maintenance Request are to be provided.
- It is highly recommended to provide a presentation describing the business process and why a change to an existing process is necessary. If needed the requester can be invited to present their Maintenance Request to CIM EG. Failing that a CIM EG Member should champion the Maintenance Request so that any questions raised may be immediately resolved.

The CIM EG Convener will inform the submitter when the Maintenance Request is to be reviewed by the CIM EG.

The Maintenance Request shall be provided to CIM EG Members and Corresponding Members prior to its presentation for approval.

The Maintenance Request will be debated within CIM EG and the CIM EG Members shall state:

- If the Maintenance Request is to be rejected.
- If the Maintenance Request is accepted.

All decisions shall be obtained through consensus².

In all cases, the requester shall be informed of the CIM EG decision.

Accepted Maintenance Requests, before being implemented in the existing standards, shall be published on the ENTSO-E website.

² ISO definition of Consensus: “general agreement, characterized by the absence of sustained opposition to substantial issues by any important part of the concerned interests and by a process that involves seeking to take into account the views of all parties concerned and to reconcile any conflicting arguments”.
